SERVING YOU FROM OUR HEART

Grace 
HEALTHCARE *Supported Facility*

welcome to our facility

Soddy-Daisy Health Care Center is a 120-bed skilled nursing and rehabilitation facility surrounded by the Great Smoky Mountains and nestled in the scenic Tennessee River Valley. Our region, popular for its outdoor adventures, is immersed in Southern hospitality and Civil War history. Hospitality continues through our center's doors with a welcoming staff, freshly baked cookie reception and a comforting, home-like environment. Featuring private suites and semi-private rooms, we gladly offer skilled nursing, post-acute rehabilitation, outpatient therapy, long-term care, dementia care, comfort care, and respite stays. We are a community that serves a diverse population enriched with true Veteran heroes. With our dedicated team of professionals, we are able to provide individualized and comprehensive care plans for every resident.

We accept Medicare, Medicaid, BCBS, most insurances, and private pay.

skilled nursing

Soddy-Daisy Health Care Center's skilled nursing services are oriented around provision of specialized care for recovery after hospitalization. Our dedicated team helps residents and family members feel at home while receiving individually-focused healthcare. From nursing care and nutritional support for recovery, to the activities of daily living, we focus on an innovative, comprehensive interdisciplinary approach. Our services include post-surgical care, tracheostomy care, diabetes management, ostomy care, IV management, and certified wound care.

rehabilitation

Whether recovering from a stroke, fall, or any other health condition that would benefit from rehabilitation, our therapy department provides a variety of services for our community. Working to gain a clear understanding of personal goals, we are committed to returning our residents to the highest possible level of function and independence. Utilizing state-of-the-art programming, our team has the education and experience to help residents meet goals through physical, occupational and speech services, as well as outpatient therapy services.

respite

Our team manages a respite program that provides caregivers time-off from caring for a loved one at home. In the event that care is needed for a long weekend or for a few weeks, family members can feel secure knowing their loved one is provided with a safe, home-like healthcare setting where both short- and long-term residents receive clinical monitoring by an educated, skilled staff whose goal is to meet needs quickly.

dementia care

It is our goal to provide compassionate care to those diagnosed with dementia and other related cognitive disorders. Complementary therapies and non-pharmacological interventions are encouraged in our center, where staff endeavor to provide a home-like setting with extended comfort and individualized activities.

health & wellness

We embrace the concept of socialization for every resident and believe the healing process and long-term health stability relies on Whole Person Care. From live music events, pet therapy and field trips, to beauty shop visits, Resident Council meetings and religious services, our staff supplements wellness by delivering opportunities for residents to maintain a fulfilled and pleasurable stay. From one-on-one interaction to group participation, our energetic team strives to utilize tailored activities to meet the individualized needs of our residents. Our compassion is expressed both by how care is delivered by our staff, and how we organize and operate our building and programs.

comfort care

Our comfort care program, which includes both palliative and hospice care, provides for individual resident wishes and coordination of advanced directives on admission, and subsequently our staff's goal is to comfort the resident and help them transition through this phase in their life. Our facility's nursing team also offers support to the families of a resident going through a Graceful End of Life Transition. It is our staff's intention to be mindful of when visitors are present and to anticipate their needs.

about our support partners

Grace Healthcare Support Services is a privately owned organization that supports skilled nursing, assisted living and rehabilitation facilities across the United States. It is our goal that you or your loved one will receive quality, compassionate care by well-trained professionals whose goal is *servicing you from the heart.* Our facility care partners provide each resident the opportunity to achieve their greatest potential and also endeavor to provide peace of mind to families. Our company's philosophy of Graceful Living encourages facility teams to go above and beyond in creating warm, caring environments. This common goal drives us to develop new programs and initiatives that support continuous improvement in care.
